Office of Long Term Services and Supports

RE: Payment Rate Transparency and Comparative Rate Analysis Reporting Requirements

NOTE: Please ensure that appropriate staff members in your organization are informed of the contents of this transmittal.

This transmittal updates providers on the Payment Rate Transparency and the Comparative Rate

Analysis and Payment Rate Disclosure, effective July 1, 2026. These updates come into compliance with the Centers for Medicare & Medicaid Services (CMS) Ensuring Access to Medicaid Services Final Rule (CMS-2442-F). The final rule is intended to strengthen the quality of care and improve access to Medicaid services, including home and community-based services (HCBS).

Payment Rate Transparency

The Payment Rate Transparency provision under 42 C.F.R. § 447.203(b)(1) requires all Medicaid fee-for-service (FFS) fee schedule payment rates to be published on a publicly accessible website through Maryland Medicaid's website. The information must be presented in a clear, organized format that allows the public to identify Maryland Medicaid's reimbursement rate for any service. Rates that vary by provider type, beneficiary population, or geographic location must be separately identifiable. For bundled payments, the comprehensive bundle rate, constituent services included in the bundle, and associated payment amounts must be reported. This information is currently communicated through transmittals on the [provider transmittals website](#). When reimbursement rates or the rate methodology are updated, a new transmittal is published to this website. Medicaid-enrolled providers delivering HCBS are strongly encouraged to review this website regularly for reimbursement rate updates and other important information.

Comparative Payment Rate Analysis and Payment Rate Disclosure

The Comparative Payment Rate Analysis and Payment Rate Disclosure provision under 42 C.F.R. § 447.203(b)(2) requires the publication of a Medicaid FFS fee schedule payment rate analysis for specified service categories. Among the required services to be reported, this transmittal provides updates exclusively for home health aide, homemaker, and habilitation services. While homemaker services are a reporting requirement, no applicable services currently exist within Maryland's HCBS programs.

To implement the requirement, HCBS were assigned to categories based on [CMS HCBS Taxonomy Category and Subcategory Definitions](#), and a table detailing the average hourly Medicaid FFS payment rates as of July 1, 2025, was developed. Rate units were converted to average hourly units for comparison, while per-visit and other non-hourly units are reported in their original form. For the reported services, rates are service-based and do not vary by population or provider type. The publication also includes the number of Medicaid-paid claims and the number of Medicaid-enrolled beneficiaries who received services during calendar year 2025.

This initial comparative payment rate analysis and payment rate disclosure for Maryland Medicaid HCBS FFS payment rates for personal care, home health aide, homemaker, and habilitation services is attached, and is also available on the [Interested Parties Advisory Group](#) website. The analysis will be updated at least every two years.

For any questions regarding this transmittal, please contact Da-Young Kang, Business Analyst, at (443) 683-0196 or da-young.kang1@maryland.gov.

Legend	Descriptions
AW	Waiver for Children with Autism Spectrum Disorder
BI	Waiver for Adults with Brain Injury
CFC	Community First Choice
CPAS	Community Personal Assistance Services
HCBOW	Home and Community-Based Options Waiver
ICS	Increased Community Services
CPW	Community Pathways Waiver
CSW	Community Supports Waiver
FSW	Family Supports Waiver

Notes

- (1) The file includes average hourly payment rates paid to both individual providers and provider agencies as of July 1, 2025, as well as the number of Medicaid-paid claims and Medicaid-enrolled beneficiaries who received each service during CY 2025.
- (2) Due to waiver consolidation in October 2025, CSW and FSW data are not fully representative of actual utilization. Beginning in CY 2026, CSW and FSW will no longer be reported separately, as both have been consolidated into CPW.
- (3) The identification of service codes and their assignment to the categories of personal care, home health aide, homemaker, and habilitation, as defined in 42 CFR 440.180(b)(2) through (4) and (6), are based on the State's interpretation.
- (4) While homemaker services were included as one of four service categories in legislation, no applicable homemaker services exist in current waivers or programs in Maryland.
- (5) Reimbursement rates are based on the service provided, rather than the type of provider or whether services are delivered by an individual provider or an agency.
- (6) Because W5620, W5602, W5600, W5603, and 0571 services are billed under a single code regardless of service level or geography, total utilization is reported as a combined sum.
- (7) W0040 and W0041 became effective on 9/1/25.
