Summary:

Program History.

For renewal waivers, please provide a brief history of the program(s) authorized under the waiver. Include implementation date and major milestones (phase-in timeframe; new populations added; major new features of existing program; new programs added).

The MI Health Link 1915 concurrent (b) and (c) Waivers were approved by the Centers for Medicare and Medicaid Services (CMS), effective January 1, 2015 to integrate care for Medicare-Medicaid beneficiaries in four regions (Upper Peninsula, Southwest Michigan, Macomb County and Wayne County.) The 1915(b) program authorized under section 1915(b)(1), 1915(b)(2), and 1915(b)(4) of the Social Security Act (the Act) allows Michigan to require mandatory enrollment of all individuals dually eligible for Medicare and Medicaid who choose to participate in MI Health Link, into the state's contracted managed care organizations for Medicaid state plan services and services approved under the 1915(c) waiver. The 1915(c) Home and Community Based (HCBS) Waiver is approved to serve individuals that are 65 and older and individuals with physical disabilities from ages 18-64 (note MI Health Link minimum age is 21.) The c-waiver provides HCBS for individuals who, absent the waiver, would require services in a nursing facility.

The Demonstration is governed by a Memorandum of Understanding and a 3-way contract between CMS, the State of Michigan, and the selected Medicare-Medicaid Plans known as Integrated Care Organizations that provide services to enrollees and carry out the waiver obligations. The 3-way contracts were executed on October 7, 2014 and enrollment began in March of 2015 and was phased in. During phase 1 eligible beneficiaries in two demonstration regions (Upper Peninsula and Southwest Michigan) were enrolled. During March and April 2015 only opt-in enrollments were effective. Passive enrollment in these two regions occurred in May and June 2015. Phase 2 began in May 2015 with 2 months of opt-in enrollment in the two remaining demonstration regions (Wayne and Macomb Counties.) Passive enrollments for these two regions occurred in July, August, and September 2015. Opt-in enrollment continued beyond phases 1 and 2 for all eligible individuals. There was no passive enrollment from October 2015 through May 2016 except in January of 2016. Monthly passive enrollment began in June of 2016 and continued through March of 2018. There was a moratorium on passive enrollment for the months of April 2018- July 2019 except for the months of May 2018 and June 2019 due to issues arising from systems conversions.

The C- Waiver provides participant self-direction opportunities and offers the following services: adult day program, respite, adaptive medical equipment and supplies, fiscal intermediary, assistive technology, chore services, environmental modifications, expanded community living supports, home delivered meals, individual directed goods and services, non-medical transportation, personal emergency response system, preventative nursing services, and private duty nursing. Community Transitions Services were included in the c-waiver until October 1, 2018 when CMS approved a 1915(i) State Plan Amendment. Vehicle modifications were pulled out from assistive technology to become its own unique service effective January 1, 2025 with approval of the c-waiver renewal. The goal of the waiver is to provide home and community-based supports and services to participants using a person-centered planning process that allows them to maintain or improve their health, welfare, and quality of life.

The MI Health Link HCBS Waiver is administered by the Michigan Department of Health and Human Services (MDHHS), Behavioral and Physical Health and Aging Services Administration (BPHASA), which is the Single State Agency. The first C- Waiver enrollment occurred in July 2015.

There were several changes to the demonstration that occurred during the first waiver period. Deemed enrollment was implemented in July of 2016 and a new passive algorithm was implemented in July of 2017 and again in August of 2019. The three way contract was amended in 2016 to strengthen care coordination requirements related to engaging enrollees and person centered care planning. In 2018 the three way contract was again amended to reflect revised requirements related to assessment deadlines, and Integrated Care Team Meetings and responsibilities. This amendment also expanded the allowable credentials of the Care Coordinator and Supports Coordinator role.

Additional changes occurred during the second waiver period. The demonstration end date was extended to 12/1/2023 and then again to 12/31/2025. The three-way contract amendment effective 1/1/2022 introduced additional requirements to strengthen the care coordination framework including:

- o Implementing care coordinator caseload requirements
- o Implementing a deadline to risk stratify new members
- o Implementing additional standards for automatically stratifying members as high risk
- o Requiring more contact attempts for unable-to-reach members
- o Implementing a standardized member assessment
- o Requiring care coordinators have access to and are informed of all Adverse Benefit Determinations, including those made by First Tier, Downstream, and Related entities

The 2022 contract amendment also effectuated the change to utilizing MHL plan experience data in rate setting. Additionally, contract language was added to reflect the importance of the social determinants of health, health disparities and health equity, including as part of MHL plans' quality improvement efforts.

The COVID-19 Public Health Emergency began and concluded during the second waiver period and spanned the years 2020-2023. Many COVID-19 Time Limited Policies were implemented during this time period by MDHHS as a result. An initiative to temporarily provide Direct Care Workers providing certain in-person services to beneficiaries enhanced pay was implemented, and has continued to the present. MDHHS utilized an 1135 waiver, a State Plan Disaster Amendment and the MHL program utilized Appendix K authority to provide defined flexibilities for the HCBS population/providers during the Public Health Emergency. The COVID-19 PHE had an impact on how care and care coordination activities were delivered.

During the second waiver period, there were also changes to the contractual arrangements between Integrated Care Organizations and the PIHPs responsible for mental health and substance use disorder services. TMDHHS holds a contract with PIHPs to delivery specialty mental health and substance use disorder services for all Michigan Medicaid beneficiaries including those enrolled in MI Health Link. The three-way contract requires ICOs to offer PIHPs the first right of refusal for delivery of mental health and substance use disorder services that fall outside of specialty services. During the second waiver period, some PIHPs in some regions withdrew from their contracts with the ICOs. In these cases the ICO contracts directly with providers for these services. The second waiver period also saw changes to Medicaid services with the addition of expanded dental benefit coverages, and addition of Doula and community health worker services.

The first year of the proposed third waiver period will be the final year of the MI Health Link Financial Alignment Initiative. MDHHS worked to collect stakeholder feedback during the 2nd waiver period to inform the demonstration extension policies as well as the planned program transition. Effective 1/1/2026 this program will transition to a Highly Integrated Dual Eligible Special Needs Plan (HIDE-SNP) program called MI Coordinated Health.

Additional Information. Please enter any additional information not included in previous pages:

MI Coordinated Health is a program that will coordinate supports and services for individuals who are dually eligible for both Medicare and Medicaid programs and reside in any one of the four regions as indicated in Section A, Part I (D) of this application, and meet the following other eligibility criteria.

Included population:

Individuals who are aged and/or disabled, age 21 or older, eligible for full benefits under Medicare Part A, and enrolled under Parts B and D, receiving full Medicaid benefits, and living in Region 1, 8, 10, and 12. Also included are individuals who are eligible for Medicaid through expanded financial eligibility limits associated with nursing facility placement or under a 1915(c) HCBS waiver.

Excluded population:

- ? Persons without full Medicaid coverage.
- ? Persons with Medicaid who reside in a State psychiatric hospital.
- ? Persons with commercial HMO coverage.
- ? Persons with Medicare Advantage through an employer.
- ? Persons disenrolled due to Special Disenrollment from Medicaid managed care.
- ? Persons incarcerated in a city, county, State, or federal correctional facility.
- ? Persons not living in a program service region.
- ? Persons with Additional Low Income Medicare Beneficiary/Qualified Individuals (ALMB/QI).
- ? Persons enrolled in the Program of All-Inclusive Care for the Elderly (PACE) or the MI Choice waiver program.
- ? Persons residing in a State VA Home
- ? Individuals under age 21 who participate in the Children's Special Health Care Services (CSHCS) program operating under the authority of Title V. Note: Individuals over age 21 enrolled in CSHCS are NOT excluded.

Medicare and Medicaid supports and services will be provided through managed care organizations called Highly Integrated Dual Special Needs Plans (HIDE SNPs) under a State Medicaid Agency Contract with MDHHS. All enrolled individuals may receive Medicaid State Plan physical health care supports and services through the MI Coordinated Health §1915(b) waiver. This MI Health Link §1915(b) waiver operates concurrently with the §1915(c) waiver called MI Coordinated Health HCBS. The MI Coordinated Health HCBS waiver offers home and community-based services (HCBS) to MI Coordinated Health enrollees who are elderly and/or physically disabled, dually eligible for Medicare and Medicaid, and meet nursing facility level of care.

Under the entire MI Coordinated Health §1915(b)/(c) waiver program, there are three capitation rate Tiers in which enrollees may be placed based on their needs. Tier 1 is for enrollees who reside in nursing facilities. Tier 1 enrollees will be given the choice of remaining in the nursing facilities or transitioning to the community and receiving home and community-based services (HCBS). Tier 2 is for enrollees who participate in the MI Coordinated Health HCBS waiver. Tier 2 enrollees would, if not for the provision of such home and community-based services, require services in a nursing facility. The goal is to provide home and community-based supports and services to participants using a person-centered planning process that allows them to maintain or improve their health, welfare, and quality of life. Tier 3 is for enrollees living in the community but are not eligible for MI Coordinated Health HCBS. Michigan's Nursing Facility Level of Care Determination (NFLOCD) tool will be used to determine in which Tier an enrollee will be placed. Tier 1 enrollees may transition to the MI Coordinated Health HCBS waiver and would then become under the Tier 2 category.

The waiver is administered by the Michigan Department of Health and Human Services (MDHHS), Behavioral and Physical Health and Aging Services Administration, which is the Single State Agency. MDHHS exercises administrative discretion in the administration and supervision of the waiver, as well as all related policies, rules, and regulations. MDHHS contracts with HIDE SNPs to provide services to MI Coordinated Health enrollees and carry out the waiver obligations. The HIDE SNPs are paid a monthly capitation rate for services rendered to MI Coordinated Health enrollees. Each HIDE SNP must sign a provider agreement with MDHHS assuring that it meets all program requirements. HIDE SNPs may use written contracts meeting the requirements of 42 CFR 434.6 to deliver other services. Entities or individuals under contract or subcontract with the HIDE SNP must meet provider standards described elsewhere in the waiver application. Provider contracts or subcontracts also assure that providers of services receive full reimbursement for services outlined in the waiver application. Providers meeting the requirements outlined in the waiver are permitted to participate.

MI Coordinated Health 1915(b)/(c) waiver program enrollees also may receive supports and services for needs related to behavioral health, intellectual/developmental disability, or substance use disorders through the PIHPs under the Michigan 1115 Behavioral Health Demonstration. HIDEs are required to work with the PIHPs to coordinate all supports and services for enrollees.

Participants enrolled in the MI Coordinated Health HCBS waiver may not be enrolled simultaneously in another of Michigan's

§1915(c) waivers. Individuals who are enrolled in the Habilitation Supports Waiver through the PIHPs may receive services through the MI Health Link 1915(b) waiver but are not permitted to participate in the MI Health Link HCBS waiver.

B. Delivery Systems (1 of 3)

1. Delivery Systems. The State will be using the following systems to deliver services:

- a. ☒ **MCO:** Risk-comprehensive contracts are fully-capitated and require that the contractor be an MCO or HIO. Comprehensive means that the contractor is at risk for inpatient hospital services and any other mandatory State plan service in section 1905(a), or any three or more mandatory services in that section. References in this preprint to MCOs generally apply to these risk-comprehensive entities.
- b. ☐ **PIHP:** Prepaid Inpatient Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments or other payment arrangements that do not use State Plan payment rates; (2) provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. Note: this includes MCOs paid on a non-risk basis.

This includes capitated PCCMs.
- **The PAHP is paid on a risk basis**
 - **The PAHP is paid on a non-risk basis**
- d. ☐ **PCCM:** A system under which a primary care case manager contracts with the State to furnish case management services. Reimbursement is on a fee-for-service basis. Note: a capitated PCCM is a PAHP.
- e. ☐ **Fee-for-service (FFS) selective contracting:** State contracts with specified providers who are willing to meet certain reimbursement, quality, and utilization standards.

2. Details on MCO/PIHP/PAHP enrollees with special health care needs.

The following items are required.

- a. ☐ The plan is a PIHP/PAHP, and the State has determined that based on the plan's scope of services, and how the State has organized the delivery system, that the **PIHP/PAHP need not meet the requirements** for additional services for enrollees with special health care needs in 42 CFR 438.208.

Please provide justification for this determination:

- b. ☒ **Identification.** The State has a mechanism to identify persons with special health care needs to MCOs, PIHPs, and PAHPs, as those persons are defined by the State.

Please describe:

Individuals with special health care needs under the age of 21 are excluded from MI Coordinated Health enrollment. This is defined as those individuals under age 21 who participate in the Children's Special Health Care Services (CSHCS) program operating under the authority of Title V. Note: individuals over the age of 21 who participate in CSHCS may participate in MI Coordinated Health. HIDE SNPs have the ability to view other program enrollment within the Community Health Automated Medicaid Processing System (CHAMPS) MMIS system if the individual is enrolled with them and they know the Medicaid ID, or name and date of birth.

- c. ☒ **Assessment.** Each MCO/PIHP/PAHP will implement mechanisms, using appropriate health care professionals, to assess each enrollee identified by the State to identify any ongoing special conditions that require a course of treatment or regular care monitoring. Please describe:

Please describe the enrollment limits and how each is determined:

The assessment process would remain the same as any MI Coordinated Health enrollee, though would require careful coordination with the CSHCS program. The SMAC requires each HIDE SNP to hold a coordination agreement with the Local Health Departments that administer the CSHCS program

- d. ☒ **Treatment Plans.** For enrollees with special health care needs who need a course of treatment or regular care monitoring, the State requires the MCO/PIHP/PAHP to produce a treatment plan. If so, the treatment plan meets the following requirements:

- ☒ Developed by enrollees? primary care provider with enrollee participation, and in consultation with any specialists? care for the enrollee.

2. ☒ Approved by the MCO/PIHP/PAHP in a timely manner (if approval required by plan).
3. ☐ In accord with any applicable State quality assurance and utilization review standards.

Please describe:

Treatment plans remain the responsibility of CSHCS and MI Coordinated Health includes the person-centered service plans, which may differ from the treatment plans. The two programs/entities must collaborate to assure they are not duplicating services.

- e. ☒ **Direct access to specialists.** If treatment plan or regular care monitoring is in place, the MCO/PIHP/PAHP has a mechanism in place to allow enrollees to directly access specialists as appropriate for enrollee's condition and identified needs.

Please describe:

MI Coordinated Health enrollees are allowed to see specialists as appropriate for the condition and identified needs indicated in the treatment plan. Medical transportation is available to enrollees to attend appointments with specialists as necessary.

- g. ☐ Primary care case managers **address barriers** that hinder enrollee compliance with prescribed treatments or regimens, including the use of traditional and/or complementary medicine.
- h. ☐ **Additional case management** is provided.

Please include how the referred services and the medical forms will be coordinated among the practitioners, and documented in the primary care case manager's files.

In the description please indicate the factors considered and whether or not the auto-assignment process assigns persons with special health care needs to an MCO/PIHP/PAHP/PCCM who is their current provider or who is capable of serving their particular needs:

- ☐ The State automatically enrolls beneficiaries.
- ☐ on a mandatory basis into a single MCO, PIHP, or PAHP in a rural area (please also check item A.I.C.3).
 - ☐ on a mandatory basis into a single PIHP or PAHP for which it has requested a waiver of the requirement of choice of plans (please also check item A.I.C.1).

- ☐ The State allows enrollees to **disenroll** from/transfer between MCOs/PIHPs/PAHPs and PCCMs. Regardless of whether plan or State makes the determination, determination must be made no later than the first day of the second month following the month in which the enrollee or plan files the request. If determination is not made within this time frame, the request is deemed approved.
- i. ☐ Enrollee submits request to State.
- ii. ☐ Enrollee submits request to MCO/PIHP/PAHP/PCCM. The entity may approve the request, or refer it to the State. The entity may not disapprove the request.
- iii. ☐ Enrollee must seek redress through MCO/PIHP/PAHP/PCCM grievance procedure before determination will be made on disenrollment request.
- ☐ The State **does not permit disenrollment** from a single PIHP/PAHP (authority under 1902 (a)(4) authority must be requested), or from an MCO, PIHP, or PAHP in a rural area.
- ☐ The State has a **lock-in** period (i.e. requires continuous enrollment with MCO/PIHP/PAHP/PCCM) of months (up to 12 months permitted). If so, the State assures it meets the requirements of 42 CFR 438.56(c).

Please describe the good cause reasons for which an enrollee may request disenrollment during the lock-in period (in addition to required good cause reasons of poor quality of care, lack of access to covered services, and lack of access to providers experienced in dealing with enrollee's health care needs):

- ☒ The State does not have a **lock-in**, and enrollees in MCOs/PIHPs/PAHPs and PCCMs are allowed to terminate or change their enrollment without cause at any time. The disenrollment/transfer is effective no later than the

Additional Information. Please enter any additional information not included in previous pages:

MI Coordinated Health (MICH) will follow Medicare Advantage rules and regulations for enrollments and disenrollments. Contracted HIDE SNPs will be responsible for enrolling eligible and interested individuals into the program in accordance with all applicable Medicare Advantage rules and regulations. HIDE SNPs must verify Medicare and Medicaid (MA) eligibility before enrolling new members in accordance with the SMAC. Enrollments will take effect the 1st day of the month after initial receipt of request to enroll. Disenrollments will take effect on the last day of the month in which the request to disenroll is received.

Enrolled individuals who lose full Medicaid are eligible for a deeming period of at least 3 months following the effective date of full MA eligibility loss. HIDE SNPs may elect to offer a longer deeming period of up to 6 months in accordance with 42 CFR § 422.52. In many cases, loss of MA is only temporary due to delays in MA redetermination paperwork or processing. Even though it appears these individuals have lost MA according to state systems, they will be "deemed" eligible for MICH & remain enrolled in the HIDE SNP during the deeming period. HIDE SNPs must disenroll individuals who do not regain full MA during the deeming period effective the last day of the deeming period.

HIDE SNPs may request involuntary disenrollments due to disruptive behavior in accordance with 42 CFR §§ 422.74(d)(2), 422.74(e)(1). Upon CMS approval of an involuntary disenrollment request, the HIDE SNP may disenroll the enrollee following Medicare Advantage policies and procedures. HIDE SNPs may also request involuntary disenrollments in accordance with 42 CFR § 438.56 and the State Medicaid Agency Contract for substantiated allegations of Medicaid fraud committed by the enrollee. Upon MDHHS approval of involuntary disenrollment in accordance with 42 CFR § 438.56, the HIDE SNP must send proper notice of disenrollment in accordance with Medicare Advantage rules and requirements before prospectively disenrolling the enrollee.

E. Grievance System (2 of 5)

2. Assurances For MCO or PIHP programs. MCOs/PIHPs are required to have an internal grievance system that allows an enrollee or a provider on behalf of an enrollee to challenge the denial of coverage of, or payment for services as required by section 1932(b)(4) of the Act and 42 CFR 438 Subpart H.

- ☒ The State assures CMS that it complies with section 1932(b)(4) of the Act and 42 CFR 438 Subpart F Grievance System, in so far as these regulations are applicable.

Please identify each regulatory requirement for which a waiver is requested, the managed care program(s) to which the waiver will apply, and what the State proposes as an alternative requirement, if any:

In addition to 42 CFR 438 Subpart F, HIDE SNPs must follow unified appeals and grievance procedures in accordance 42 CFR §§ 422.629 ? 422.634, as well as grievance procedures outlined in MCL 500.2213.

- ☒ The CMS Regional Office has reviewed and approved the MCO or PIHP contracts for compliance with the provisions of section 1932(b)(4) of the Act and 42 CFR 438 Subpart F Grievance System. If this is an initial waiver, the State assures that contracts that comply with these provisions will be submitted to the CMS Regional Office for approval prior to enrollment of beneficiaries in the MCO, PIHP, PAHP, or PCCM.

3. Details for MCO or PIHP programs

a. Direct Access to Fair Hearing

- ☒ The State **requires** enrollees to **exhaust** the MCO or PIHP grievance and appeal process before enrollees may request a state fair hearing.
- ☐ The State **does not require** enrollees to **exhaust** the MCO or PIHP grievance and appeal process before enrollees may request a state fair hearing.

b. Timeframes

- ☒ The State's timeframe within which an enrollee, or provider on behalf of an enrollee, must file an **appeal** is days (between 20 and 90).
- ☐ The State's timeframe within which an enrollee must file a **grievance** is days.

c. Special Needs

- ☒ The State has special processes in place for persons with special needs.

Please describe:

Section A: Program Description

Part IV: Program Operations

E. Grievance System (4 of 5)

4. Optional grievance systems for PCCM and PAHP programs. States, at their option, may operate a PCCM and/or PAHP grievance procedure (distinct from the fair hearing process) administered by the State agency or the PCCM and/or

PAHP that provides for prompt resolution of issues. These grievance procedures are strictly voluntary and may not interfere with a PCCM, or PAHP enrollee's freedom to make a request for a fair hearing or a PCCM or PAHP enrollee's direct access to a fair hearing in instances involving terminations, reductions, and suspensions of already authorized Medicaid covered services.

- ☐ The State has a grievance procedure for its ☐ PCCM and/or ☐ PAHP program characterized by the following (please check any of the following optional procedures that apply to the optional PCCM/PAHP grievance procedure):
The grievance procedures are operated by:

- ☐ the State
☐ the State's contractor.

Please identify:

- ☐ the PCCM
☐ the PAHP

- ☐ Requests for review can be made in the PCCM and/or PAHP grievance system (e.g. grievance, appeals):

Please describe:

- ☐ Has a committee or staff who review and resolve requests for review.

Please describe if the State has any specific committee or staff composition or if this is a fiscal agent, enrollment broker, or PCCM administrator function:

- ☐ Specifies a time frame from the date of action for the enrollee to file a request for review.

Please specify the time frame for each type of request for review:

- ☐ Has time frames for resolving requests for review.

Specify the time period set for each type of request for review:

- ☐ Establishes and maintains an expedited review process.

Please explain the reasons for the process and specify the time frame set by the State for this process:

- ☐ Permits enrollees to appear before State PCCM/PAHP personnel responsible for resolving the request for review.

- ☐ Notifies the enrollee in writing of the decision and any further opportunities for additional review, as well as the

procedures available to challenge the decision.

☐ Other.

E. Grievance System (5 of 5)

Additional Information. Please enter any additional information not included in previous pages:

For appeals involving Medicare and Medicaid overlapping benefits, enrollees may file an appeal through either the Medicare or Medicaid appeals processes or both.

Appeals for Medicaid service denials must be made to the HIDE SNP prior to filing an appeal with the Michigan Office of Administrative Hearings and Rules (MOAHR).

If an appeal involves an HIDE SNP Medicaid only benefit and the enrollee chooses to appeal through the Michigan Department of Financial and Insurance Services (DIFS), Patient Right to Independent Review Act, external review, the enrollee must first exhaust the HIDE SNP appeal process.

Initial appeals for Medicare service denials, reductions and terminations will be made to the HIDE SNPs; sustained decisions will be auto-forwarded to the Medicare Independent Review Entity (IRE). Enrollees will be able to request a hearing before an Office of Medicare Hearings and Appeals (OMHA) administrative law judge for decisions sustained by the IRE.

The Medicaid Fair Hearing process:

Requests for State Fair Hearing must be filed within one hundred and twenty (120) days of the notice of resolution following the HIDE SNP internal appeal process.

Enrollees have the right to a Fair Hearing when they are denied eligibility (for the MI Coordinated Health §1915(b)/(c) waiver only, the MI Coordinated Health 1915(b) waiver, or Medicaid in general), denied choice of providers, or when services have been denied, suspended, reduced or terminated and the decision was sustained by the HIDE SNP during the internal appeal.

When denials, suspensions, reductions, or terminations occur, ICOs will provide the enrollee with a notice of denial of medical coverage. This notice of denial of medical coverage is a single, integrated form for Appeals related to Medicare and Medicaid supports and services or providers and must include the following components:

- ? The action the HIDE SNP has taken or intends to take;
- ? The reasons for the action explained in terms that are easy for the enrollee to understand;
- ? The citation to the supporting regulations;
- ? The enrollee's, provider's or authorized representative's right to file an internal Appeal with the HIDE SNP and that exhaustion of the HIDE SNP's internal Appeal processes is a prerequisite to filing an External Appeal to Medicare for a Medicare service or filing an external review (Patient's Right to Independent Review Act (PRIRA)) with DIFS or the Michigan Office of Administrative Hearings and Rules (MOAHR) for a Medicaid service;
- ? Procedures for exercising enrollee's rights to appeal;
- ? The enrollee's right to request a State Fair Hearing in accordance with MCL 400.9,
- ? Circumstances under which expedited resolution is available and how to request it;
- ? The enrollee's right to request an independent review of a Medicaid service with the DIFS in the implementation of PRIRA, MCL 550.1901-1929; and
- ? If applicable, the enrollee's rights to have benefits continue pending the resolution of the appeal, and the circumstances under which the enrollee may be required to pay the costs of these services.

Internal or Initial Appeals for Medicaid service denials will be made to the HIDE SNP. If the HIDE SNP's decision is sustained in the Initial Appeal, the enrollee may appeal to MOAHR as long as it is within the 120 days of the notice of denial of medical coverage. All Appeals must be resolved by the HIDE as expeditiously as the enrollee's condition requires, but always within 30 calendar days of the request for standard appeals, and within 72 hours of the request for expedited appeals. This timeframe may be extended up to 14 days if the party or parties can show there is a need for the delay and it is in the enrollee's best interest. MOAHR will resolve appeals as expeditiously as the enrollee's condition requires, but ordinarily within 90 calendar days of the received request.

The HIDE SNP must continue to provide benefits for all prior approved benefits (excluding Medicare Part D) that are terminated or changed pending HIDE SNP Internal Appeals. For all appeals filed with MOAHR, HIDE SNPs must continue to cover benefits for requests received within 10 calendar days of the notice of denial of medical coverage. In circumstances where the time for a standard appeal is too long and may seriously jeopardize the enrollee's life, health, or ability to attain, maintain, or regain maximum function, the HIDE SNP or the enrollee's provider may request an Expedited Appeal. If the Expedited Appeal is denied, the appeal request is moved to the standard appeal timeframe and attempts must be made to notify the enrollee immediately and also provide the enrollee with written notice of the denial within two calendar days.

All appeal decisions must be in writing and must include, but not be limited to, the decision that was reached and the date of the decision. If the appeal decision is not entirely in favor of the enrollee, the following information must be included in the notification to the enrollee: 1) the right to request a State Fair Hearing and how to do so within the 120 calendar days timeframe, 2) the right to receive benefits if the Internal Appeal was received within 10 calendar days of the notice of denial of medical coverage, and 3) the right to request external review through PRIRA, DIFS, and how to do so.

Payments for services covered during a pending appeal will not be recouped based on the outcome of the appeal.

Additionally, the Enrollee Handbook (or Member Handbook, the alternative name) which is provided to enrollees upon enrollment will also describe the entire appeals process including the State Fair Hearing process.

Refer to the State Medicaid Agency Contract for additional details regarding appeals and grievances processes.

Section B: Monitoring Plan

Part II: Details of Monitoring Activities

Program Instance: MI Coordinated Health

Please check each of the monitoring activities below used by the State. A number of common activities are listed below, but the State may identify any others it uses. If federal regulations require a given activity, this is indicated just after the name of the activity. If the State does not use a required activity, it must explain why.

For each activity, the state must provide the following information:

- Personnel responsible (e.g. state Medicaid, other state agency, delegated to plan, EQR, other contractor)
- Detailed description of activity
- Frequency of use
- How it yields information about the area(s) being monitored

- a. ☐ **Accreditation for Non-duplication** (i.e. if the contractor is accredited by an organization to meet certain access, structure/operation, and/or quality improvement standards, and the state determines that the organization's standards are at least as stringent as the state-specific standards required in 42 CFR 438 Subpart D, the state deems the contractor to be in compliance with the state-specific standards)

- c. ☒ **Consumer Self-Report data**

Activity Details:

According to the SMAC, the HIDE SNP is required to submit an annual Adult Consumer Assessment of Healthcare Providers and Systems Survey (CAHPS) conducted by a certified vendor. Additionally, MDHHS also contracts with a vendor to complete an annual CAHPS survey across all HIDE SNPs. HCBS will not be conducted until 2027 in MICH due to continuous enrollment requirement.

The CAHPS is used to assess enrollee satisfaction with their healthcare experience. The aggregate CAHPS results provide important program information as part of the State's overall quality improvement strategy.

Annual waiver audits are conducted utilizing beneficiary interviews to gauge satisfaction and ensuring that members are receiving services they are assessed for on their care plan. Results from telephonic interviews are incorporated into audit findings.

The State may also develop additional survey(s) to capture data for any CMS/State defined performance measures or other initiatives for which there are no related CAHPS measures as indicated in the MI Coordinated Health Quality Strategy. There may also be consumer self-report data related to the concurrent MI Coordinated Health HCBS waiver.

- ☒ **CAHPS**

Please identify which one(s):

Most current version of the Medicare CAHPS survey completed by each individual HIDE SNP. MDHHS contracts with EQRO to conduct HCBS CAHPS Survey across all ICOs.

- ☒ **State-developed survey**
- ☐ **Disenrollment survey**
- ☐ **Consumer/beneficiary focus group**

- d. ☒ **Data Analysis (non-claims)**

Activity Details:

The State reviews available reports and data sources to evaluate enrollment and disenrollment trends, program integrity issues, coverage and authorizations, grievances and appeal activity within the plans, and other measures established by the CMT.

The State reviews provider files to evaluate PCP/Specialist Capacity and access by plan. The CMT monitors the overall number and rate of PCP's that either voluntarily leave or are terminated from the HIDE SNPs provider network through review of the annual PCP Turnover Report.

MDHHS also conducts data analysis for the MI Coordinated Health HCBS waiver Quality Improvement Strategy. There are many performance measures in the Quality Improvement Strategy that require analysis of data from many sources such as annual on-site and off-site reviews of HIDE SNPs, home visits/interviews with enrollees, the MMIS system (CHAMPS), the Waiver Management System for MI Coordinated Health HCBS, provider monitoring reports, and the Critical Incident Management System.

e. ☒ **Enrollee Hotlines**

Activity Details:

The State maintains a beneficiary Michigan ENROLLS telephone line to address enrollee inquiries regarding basic Medicaid eligibility, Medicaid programs, and referrals to a beneficiary's HIDE SNP as applicable (or to any HIDE SNP in a beneficiary's region if they are not enrolled.)

f. ☐ **Focused Studies** (detailed investigations of certain aspects of clinical or non-clinical services at a point in time, to answer defined questions. Focused studies differ from performance improvement projects in that they do not require demonstrable and sustained improvement in significant aspects of clinical care and non-clinical service)

Activity Details:

g. ☒ **Geographic mapping**

Activity Details:

MDHHS requires geographic mapping as part of the contract requirements for adequate provider networks and for changes in service area. Geographic mapping is monitored by the State during annual provider network validation. The HIDE SNP must have at least two available providers for each provider type with sufficient capacity to accept enrollees. For services provided in the enrollee's home, the HIDE SNP must assure that the enrollee has choice of providers. For services provided in the community, the HIDE SNP must assure that the enrollee has a choice of providers and the enrollee does not travel more than 30 miles or for more than 30 minutes to receive the service. (Travel time is measured during non-peak hours.) If the HIDE SNP cannot assure choice within the travel time or distance for each Enrollee, it may make a request of MDHHS for a rural exception.

- h. ☒ **Independent Assessment** (Required for first two waiver periods)

Activity Details:

The independent assessment for MI Coordinated Health will be conducted by a contractor selected by MDHHS (as applicable). Contractor will complete the independent assessments according to CMS issued guidelines.

This report reflects a comprehensive review and synthesis of the available data and reports generated from evaluation activities available through CMS and the State of Michigan for the Program. The assessment activities are broadly organized under four overarching domains: Access to Care, Quality of Care, Cost Effectiveness, and Program Management and Operations. The conclusions provided herein summarize findings derived from a variety of sources including administratively-based utilization data/health care records as well as Program stakeholder (e.g., enrollee, provider, HIDE SNP, PIHP and MDHHS staff) feedback.

- i. ☐ **Measure any Disparities by Racial or Ethnic Groups**

Activity Details:

- j. ☒ **Network Adequacy Assurance by Plan** [Required for MCO/PIHP/PAHP]

Activity Details:

The network adequacy data provides evaluation of and information for provider capacity, provider selection and enrollee choice.
Network Validation is completed annually in the fall.

- k. ☒ **Ombudsman**

Activity Details:

The State contracts with a vendor to act at the program's Ombudsman. MDHHS has direct oversight of the ombudsman. MDHHS will ensure all contractually required reporting is completed as appropriate.

- l. ☒ **On-Site Review**

Activity Details:

MDHHS contracts with an EQRO to conduct compliance reviews to ensure HIDE SNP compliance with contract requirements for choice, program integrity, information to beneficiaries, grievances, timely access, PCP/Specialists capacity, coordination/continuity of care, coverage/authorization, provider selection, and quality of care. Compliance review reports are developed which provide a summary of findings, identification of areas in which action is needed, and opportunities for improvement.

CMT members will conduct on-site visits as needed to evaluate and monitor program activities.

m. ☒ **Performance Improvement Projects** [Required for MCO/PIHP]

Activity Details:

HIDE SNPs are required to conduct Performance Improvement Projects (PIP). Generally, HIDE SNPs can select PIP topics specific to the populations within each HIDE SNP. However, the State may also identify and mandate topics for specific regional or program-wide projects. HSAG is acting as the state's EQRO and the state has defined the topic of Health Disparity for the current PIP (2025); This PIP or QIP (Quality Improvement Project) was chosen to align with one of the goals within the MDHHS Comprehensive Quality Strategy: MDHHS Comprehensive Quality Strategy Goal #4: Reduce racial and ethnic disparities in healthcare and health outcomes. Objective A: Use a data-driven approach to identify root causes of racial and ethnic disparities and address health inequity at its source when possible. Objective D: Create a valid/reliable system to quantify and monitor racial/ethnic disparities to identify gaps in care and reduce identified racial disparities among the managed care populations. MDHHS did not mandate a statewide topic for this focus but rather allowed the HIDE SNPs to identify existing racial or ethnic disparities within the region(s) and populations served and determine its plan-specific topic and performance indicator(s). The HIDE SNPs could utilize national specifications (HEDIS), CMS Core or Michigan specific measures, or develop a home-grown measure as appropriate for the region(s) and populations served. The three-year PIP cycle was extended to a 4th year in 2025 as the MHL program was in its final year. A new PIP cycle will start in 2026 with a new topic that has not yet been defined. HSAG will perform validation of the HIDE SNPs's improvement projects.

☒ **Clinical**

☒ **Non-clinical**

n. ☒ **Performance Measures** [Required for MCO/PIHP]

Activity Details:

The State and HIDE SNPs are responsible for the performance measurement process. The State has established performance measures that are monitored on a regular basis. The scope of the performance monitoring measures includes quality of care, access to care, customer service, encounter data, care coordination, and claims reporting and processing measures.

Additionally, the EQRO will evaluate areas of opportunity and provide recommendations in the final EQR Technical Report. The Technical Report is available annually at the end of April. The report is publicly posted to the program website and shared with plans along with any recommendations from the EQRO activities performed throughout the year. Each fall the HIDE SNPs are expected to provide responses to the recommendations in the report with strategies and plans to address these recommendations to make improvements to program deficiencies. The CMT works closely with the EQRO and will take actions on recommendations as available.

These data provide information relative to grievances, timely access, and quality of care. MDHHS utilizes these data in setting quality strategy goals, performance standards, improvement plans, and payment related to quality withhold.

The HIDE SNPs are required to incorporate these findings into their annual Quality Assessment and Improvement Plans, which is reviewed by the State annually.

- ☒ **Health plan stability/ financial/ cost of care**
- ☒ **Health plan/ provider characteristics**

- o. ☒ **Periodic Comparison of # of Providers**

Activity Details:

Weekly provider files for PCPs and Specialists are collected and monitored and an annual network validation is conducted for each HIDE SNPs full network of providers. The CMT monitors the overall number and rate of PCP's that either voluntarily leave or are terminated from the plan's provider network through review of the annual PCP Turnover Report.

- p. ☐ **Profile Utilization by Provider Caseload** (looking for outliers)

Activity Details:

- q. ☒ **Provider Self-Report Data**

Activity Details:

The annual compliance review, conducted by HSAG, includes review of HIDE SNP Grievance and Appeals systems. The HSAG compliance review also monitors HIDE SNP's Quality Improvement and Performance Improvement Plan (QAPI) which requires HIDE SNPs maintain adequate access to and availability of primary care, behavioral health care, pharmacy, specialty health care, and LTSS providers and services. In addition, the State reviews provider self-reported data on Grievances through collection of the annual Managed Care Program Annual Report (MCPAR) Workbook. As stated above, the State reviews provider files to evaluate PCP/Specialist Capacity and access by plan. The CMT monitors the number and rate of PCP's that either voluntarily leave or are terminated from the HIDE SNPs provider network through review of the annual PCP Turnover Report.

☐ Survey of providers

☐ Focus groups

r. ☒ **Test 24/7 PCP Availability**

Activity Details:

The State requires HIDE SNPs to monitor 24/7 Primary Care Provider availability and the requirement that each location must be open a minimum of 20 hours per week. This is reviewed by State staff through the CMT. The annual compliance review, conducted by HSAG, monitors HIDE SNP's Quality Improvement and Performance Improvement Plan (QAPI) which requires HIDE SNPs maintain adequate access to and availability of primary care providers. The CMT works closely with HSAG through the compliance review.

s. ☒ **Utilization Review** (e.g. ER, non-authorized specialist requests)

Activity Details:

HIDE SNPs conduct utilization reviews. The State assures that the HIDE SNP has a utilization management program that governs the HIDE SNP's utilization review and decision-making through the CMT. The annual compliance review, conducted by HSAG, includes review of the Utilization Management Program that governs the HIDE SNP's utilization review and decision-making. The CMT works closely with HSAG through the compliance review.

t. ☒ **Other**

Activity Details:

The State staff routinely conducts review of marketing, educational and member material to ensure contract compliance prior to distribution by the HIDE SNP. The SMAC defines the criteria for marketing materials. The CMT is utilized as a vehicle to request additional data as needed from HIDE SNPs and conduct routine and ad hoc monitoring through monthly calls and as needed on-site visits. HSAG conducted a 3-year compliance review cycle 2022-2024. With review of all outstanding CAPs and deficiencies addressed with those plans. A new compliance review cycle will start in 2026. In 2022 a new QIP was identified and 3-year QIP cycle started for health disparity; however, this has been expanded to a fourth year of validation in 2025. A new PIP cycle will start in 2026. The technical report is available annually in April and recommendations are addressed by HIDE SNPs in writing in the fall of each year.

Section C: Monitoring Results

Renewal Waiver Request

Section 1915(b) of the Act and 42 CFR 431.55 require that the State must document and maintain data regarding the effect of the waiver on the accessibility and quality of services as well as the anticipated impact of the project on the State's Medicaid program. In Section B of this waiver preprint, the State describes how it will assure these requirements are met. For an initial waiver request, the State provides assurance in this Section C that it will report on the results of its monitoring plan when it submits its waiver renewal request. For a renewal request, the State provides evidence that waiver requirements were met for the most recent waiver period. Please use Section D to provide evidence of cost-effectiveness.

CMS uses a multi-pronged effort to monitor waiver programs, including rate and contract review, site visits, reviews of External Quality Review reports on MCOs/PIHPs, and reviews of Independent Assessments. CMS will use the results of these activities and reports along with this Section to evaluate whether the Program Impact, Access, and Quality requirements of the waiver were met.

This is a renewal request.

- ☐ **This is the first time the State is using this waiver format to renew an existing waiver.** The State provides below the results of the monitoring activities conducted during the previous waiver period.
- ☒ **The State has used this format previously** The State provides below the results of the monitoring activities conducted during the previous waiver period.

For each of the monitoring activities checked in Section B of the previous waiver request, the State should:

- **Confirm** it was conducted as described in Section B of the previous waiver preprint. If it was not done as described, please explain why.
- **Summarize the results** or findings of each activity. CMS may request detailed results as appropriate.
- **Identify problems** found, if any.
- **Describe plan/provider-level corrective action**, if any, that was taken. The State need not identify the provider/plan by name, but must provide the rest of the required information.
- **Describe system-level program changes**, if any, made as a result of monitoring findings.

The Monitoring Activities were conducted as described:

☒ **Yes** ☐ **No**

If No, please explain:

Provide the results of the monitoring activities:

Consumer Self-Report data: Both HIDE SNPs & MDHHS conducted annual surveys to gather feedback on enrollee experience. Results were reviewed with individual ICOs through the monthly CMT meeting. Areas of opportunity that ICOs needed to address were identified as were areas of success. Results of the MDHHS annual CAHPS survey are posted publicly on the MI Health Link website.

State developed survey: MDHHS contracted with the Institute for Health Policy to conduct surveys of individuals that were enrolled, never enrolled, and disenrolled from MI Health Link. Results were aggregated analyzed by MDHHS and shared with ICOs to help drive improvements and develop mechanisms to address the reasons identified for disenrollment.

Data Analysis: Provider Files have been monitored throughout the demonstration w/ no issues identified. All of the ICOs have adequate networks to address enrollee needs. Types of grievances & appeals have also been monitored & as needed discussed w/ the ICOs to ensure systematic changes were made as needed. A detailed review of multiple data sources including enrollee interview, record & system review has been completed annually as part of the waiver quality assurance process. These reviews result in an annual report for each ICO & where needed corrective action plans were developed and monitored by MDHHS until compliance was achieved. Results have also been included in the CMS-372 report.

Enrollee Hotline: The State maintains a beneficiary Michigan ENROLLS telephone line to address enrollee inquiries regarding provider choice, enrollment/disenrollment, & other related questions & concerns. No significant issues or trends were identified through this means.

Geographic Mapping/Network Adequacy/Periodic Comparison of # of Providers: All ICO networks were deemed compliant through this process or exceptions were approved.

Independent Assessment: MDHHS contracted with the Institute for Health Policy to complete an assessment of the demonstration's impact on the quality, access and cost of care. That report is submitted along with this application for renewal.

Ombudsman: MDHHS monitored all MI Health Link Ombudsman reporting for patterns/trends and discussed with both the Ombudsman, and CMS and the ICOs through the CMT. Monthly calls were held with the Ombudsman to work through any identified issues.

On-Site Review: While much of the oversight and monitoring through the CMT was off-site each team met on-site at the ICO throughout the demonstration as well. On-site waiver audits were completed during the demonstration to evaluate ICO compliance with performance measures and ensure waiver services were being administered according to regulation and guidance.

Other: State staff routinely conducts review of marketing, educational and member materials to ensure compliance with contractual requirements. No significant findings/patterns were identified.

EQRO Activities: Based on the recommendations of the EQRO MDHHS has initiated a review of a sample of each ICOs IICSPs. The review is focusing on the person centeredness and inclusion of required elements and spans a 4 month period with discussions held during the monthly CMT call to discuss findings. The CMT discussed plan denials on as a monthly topic with ICOs including denial templates, use of denials/vendors using appropriate templates. MDHHS will develop and require plans to submit a denial file quarterly. A sample will be audited for compliance. MDHHS is planning to hold an educational opportunity jointly with the MHLO for plans related to Denials/Appeals and Grievances. MDHHS has implemented a provider monitoring program with plans completing monitoring of direct waiver service providers and submitting their monitoring reports to MDHHS for review and tracking. HSAG will also conduct a focused review of appeals and grievances as an EQR function. MDHHS will collect and review ICOs QAPI plans.

Performance Improvement Projects: ICOs maintain Quality Improvement Plans that were monitored through the EQR process. Additionally, MDHHS and CMS collected data from ICOs related to mandatory Quality and Performance Improvement Projects with topics defined by CMS and/or the State throughout the demonstration. Results of Quality Projects are discussed with all ICOs through Quality Workgroup Meetings and MHL Quality data is shared with enrollees through State Advisory Council Meetings.

Performance Measures: The State and CMS have defined Performance Measures that were monitored routinely throughout the demonstration. The CMT, and waiver quality assurance audits were vehicles used to monitor all measures which covered quality of care, access to care, customer service, encounter data, care coordination, and claims reporting and processing. Areas of opportunity are discussed with ICOs and corrective action plans are required when applicable. Data is reported through the CMS 372 report and also utilized when designing quality strategy goals, performance standards, payments related to quality withhold,

and passive enrollment assignments. Best practices are discussed through Quality Management Workgroup Meetings and Quality Data is shared with enrollees through State Advisory Council Meetings.

Part I: State Completion Section**A. Assurances****a. [Required] Through the submission of this waiver, the State assures CMS:**

- The fiscal staff in the Medicaid agency has reviewed these calculations for accuracy and attests to their correctness.
- The State assures CMS that the actual waiver costs will be less than or equal to or the State's waiver cost projection.
- Capitated rates will be set following the requirements of 42 CFR 438.6(c) and will be submitted to the CMS Regional Office for approval.
- Capitated 1915(b)(3) services will be set in an actuarially sound manner based only on approved 1915(b)(3) services and their administration subject to CMS RO prior approval.
- The State will monitor, on a regular basis, the cost-effectiveness of the waiver (for example, the State may compare the PMPM Actual Waiver Cost from the CMS 64 to the approved Waiver Cost Projections). If changes are needed, the State will submit a prospective amendment modifying the Waiver Cost Projections.
- The State will submit quarterly actual member month enrollment statistics by MEG in conjunction with the State's submitted CMS-64 forms.

For transportation and dental waivers alone, States do not need to consider an overlapping population with another waiver containing additional services, enhanced payments, or sole source procurement as a trigger for the comprehensive waiver test. However, if the transportation services or dental PAHP waiver meets the criteria in a, b, or c for additional services, enhanced payments, or sole source procurement then the State should mark the appropriate box and process the waiver using the Comprehensive Test.*

If you marked any of the above, you must complete the entire preprint and your renewal waiver is subject to the Comprehensive Test. If you did not mark any of the above, your renewal waiver (not conversion or initial waiver) is subject to the Expedited Test:

- b. ☐ For a renewal waiver, because of the timing of the waiver renewal submittal, the State did not have a complete R2 to submit. Please ensure that the formulas correctly calculated the annualized trend rates. *Note: it is no longer acceptable to estimate enrollment or cost data for R2 of the previous waiver period.*
- c. ☒ [Required] Explain the reason for any increase or decrease in member months projections from the base year or over time:

The projected enrollment has been increased to reflect the transition to the MI Coordinated Health program and anticipated material increase in members for the HIDE SNPs.

- d. ☐ [Required] Explain any other variance in eligible member months from BY/R1 to P2:

- e. ☒ [Required] Specify whether the BY/R1/R2 is a State fiscal year (SFY), Federal fiscal year (FFY), or other period:

The BY is CY 2023 and CY 2024 Jan-June.

For Conversion or Renewal Waivers:

- ☒ [Required] Explain if different services are included in the Actual Waiver Cost from the previous period

in Appendix D3 than for the upcoming waiver period in Appendix D5.

Explain the differences here and how the adjustments were made on Appendix D5:

Vehicle Modifications was added as a 1915c waiver service.

a. ☒ **[Required] Explain the exclusion of any services from the cost-effectiveness analysis.**

For States with multiple waivers serving a single beneficiary, please document how all costs for waiver covered individuals taken into account.

Hospice services have been excluded from the cost-effectiveness analysis due to individuals receiving hospice being excluded from the MI Health Link program.

G. Appendix D2.A - Administration in Actual Waiver Cost

[Required] The State allocated administrative costs between the Fee-for-service and managed care program depending upon the program structure. *Note: initial programs will enter only FFS costs in the BY. Renewal and Conversion waivers will enter all waiver and FFS administrative costs in the R1 and R2 or BY.*

The allocation method for either initial or renewal waivers is explained below:

- ☒ The State allocates the administrative costs to the managed care program based upon the number of waiver enrollees as a percentage of total Medicaid enrollees. *Note: this is appropriate for MCO/PCCM programs.*
- ☐ The State allocates administrative costs based upon the program cost as a percentage of the total Medicaid budget. It would not be appropriate to allocate the administrative cost of a mental health program based upon the percentage of enrollees enrolled. *Note: this is appropriate for statewide PIHP/PAHP programs.*
- ☒ Other
Please explain:

We have developed the state administrative costs based on the filed PMPMs for Projection Year 5 from the prior 5-year waiver submission. Because this level of information is not readily available, we used the information provided by MDHHS for the previous submission to determine the administrative allocation by line item and per member per month cost for each of the three MEGs. Using actual enrollment for the base period of January 1, 2023 through June 30, 2024, we estimated the emerging administrative costs for the base period.

Appendix D2.A: Administration in Actual Waiver Cost

Section D: Cost-Effectiveness

Part I: State Completion Section

H. Appendix D3 - Actual Waiver Cost

- a. ☐ The State is requesting a 1915(b)(3) waiver in **Section A.I.A.1.c** and will be providing non-state plan medical services. The State will be spending a portion of its waiver savings for additional services under the waiver.
- b. ☒ **The State is including voluntary populations in the waiver.**
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

The MI Health Link capitation rates are developed utilizing actual experience for the MI Health Link program and represents experience only for those members that opt to remain in the program.

- c. ☒ **Capitated portion of the waiver only -- Reinsurance or Stop/Loss Coverage:** Please note how the State will be providing or requiring reinsurance or stop/loss coverage as required under the regulation. States may require MCOs/PIHPs/PAHPs to purchase reinsurance. Similarly, States may provide stop-loss coverage to MCOs/PIHPs/PAHPs when MCOs/PIHPs/PAHPs exceed certain payment thresholds for individual enrollees. Stop loss provisions usually set limits on maximum days of coverage or number of services for which the MCO/PIHP/PAHP will be responsible. If the State plans to provide stop/loss coverage, a description is required. The State must document the probability of incurring costs in excess of the stop/loss level and the frequency of such occurrence based on FFS experience. The expenses per capita (also known as the stoploss premium amount) should be deducted from the capitation year projected costs. In the initial application, the effect should be neutral. In the renewal report, the actual reinsurance cost and claims cost should be reported in Actual Waiver Cost.

Basis and Method:

1. ☒ **The State does not provide stop/loss protection for MCOs/PIHPs/PAHPs, but requires MCOs/PIHPs/PAHPs to purchase reinsurance coverage privately. No adjustment was necessary.**
2. ☐ **The State provides stop/loss protection**
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- d. ☒ **Incentive/bonus/enhanced Payments for both Capitated and fee-for-service Programs:**
1. ☒ **[For the capitated portion of the waiver] the total payments under a capitated contract include any incentives the State provides in addition to capitated payments under the waiver program.** The costs associated with any bonus arrangements must be accounted for in the capitated costs (Column D of Appendix D3 Actual Waiver Cost). Regular State Plan service capitated adjustments would apply.

Document

- i. **Document the criteria for awarding the incentive payments.**
- ii. **Document the method for calculating incentives/bonuses, and**
- iii. **Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs do not exceed the Waiver Cost Projection.**

i. MDHHS will be withholding a percentage of the capitation payments and will pay this out to ICOs after the end of the year based on their performance indicators. The criteria for the awards are communicated to the ICOs each year. The withhold for CY 2025 is 4%.

ii. For each contract year, performance bonus incentives are withheld from the capitation payments for the respective ICOs. The amount withheld for each year of the waiver period is a percentage of the capitation payment. The incentive costs are calculated as a percentage of the capitated costs.

iii. The total payments will not exceed the Waiver Cost Projection because the incentives are included in the approved capitation payments. We have assumed the full bonus is paid under the waiver. If performance criteria are not met, incentive payments are not awarded. Conversely, the award cannot exceed the amount from each capitation payment.

The incentive payments have been included as part of the capitated costs in the Appendix D spreadsheets for the purposes of determining cost effectiveness.

2. ☐ **For the fee-for-service portion of the waiver, all fee-for-service must be accounted for in the fee-for-service incentive costs (Column G of Appendix D3 Actual Waiver Cost).** For PCCM providers, the amount listed should match information provided in D.I.D Reimbursement of Providers. Any adjustments applied would need to meet the special criteria for fee-for-service incentives if the State elects to provide incentive payments in addition to management fees under the waiver program (See D.I.I.e and D.I.J.e)

Document:

- i. Document the criteria for awarding the incentive payments.
- ii. Document the method for calculating incentives/bonuses, and
- iii. Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs/PCCMs do not exceed the Waiver Cost Projection.

- a. State Plan Services Trend Adjustment** ? the State must trend the data forward to reflect cost and utilization increases. The R1 and R2 (BY for conversion) data already include the actual Medicaid cost changes for the population enrolled in the program. This adjustment reflects the expected cost and utilization increases in the managed care program from R2 (BY for conversion) to the end of the waiver (P2). Trend adjustments may be service-specific and expressed as percentage factors. Some states calculate utilization and cost separately, while other states calculate a single trend rate. The State must document the method used and how utilization and cost increases are not duplicative if they are calculated separately. . **This adjustment must be mutually exclusive of programmatic/policy/pricing changes and CANNOT be taken twice. The State must document how it ensures there is no duplication with programmatic/policy/pricing changes.**

1. ☐ [Required, if the State's BY or R2 is more than 3 months prior to the beginning of P1] The State is using actual State cost increases to trend past data to the current time period (i.e., trending from 1999 to present).

The actual trend rate used is:

Please document how that trend was calculated:

2. ☒ [Required, to trend BY/R2 to P1 and P2 in the future] When cost increases are unknown and in the future, the State is using a predictive trend of either State historical cost increases or national or regional factors that are predictive of future costs (same requirement as capitated ratesetting regulations) (i.e., trending from present into the future).

i. ☒ State historical cost increases.

Please indicate the years on which the rates are based: base years. In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

The retrospective year information reflected in the Appendix D workbook encompasses 18 months of incurred experience that was paid to the integrated care organizations as the Medicaid rate component of the demonstration program. The 18-month base period extends from January 1, 2023 through June 30, 2024. We have included inflationary estimates in Column L for state plan services and Column AA for 1915(c) waiver services reflect estimated capitation rates for the MI Health Link program. These adjustments reflect the changes being applied to the historical costs reported on tab D3. Actual Waiver Cost, to reflect potential increases in future years.

ii. ☐ National or regional factors that are predictive of this waiver's future costs.

Please indicate the services and indicators used. In addition, please indicate how this factor was determined to be predictive of this waiver's future costs. Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

3. ☐ The State estimated the PMPM cost changes in units of service, technology and/or practice patterns that would occur in the waiver separate from cost increase.

Utilization adjustments made were service-specific and expressed as percentage factors. The State has documented how utilization and cost increases were not duplicated. This adjustment reflects the changes in utilization between R2 and P1 and between years P1 and P2.

- i. Please indicate the years on which the utilization rate was based (if calculated separately only).
ii. Please document how the utilization did not duplicate separate cost increase trends.

Appendix D4 ? Adjustments in Projection

Section D: Cost-Effectiveness

Part I: State Completion Section

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (2 of 5)

- b. **State Plan Services Programmatic/Policy/Pricing Change Adjustment:** This adjustment should account for any programmatic changes that are not cost neutral and that affect the Waiver Cost Projection. For example, changes in rates, changes brought about by legal action, or changes brought about by legislation. For example, Federal mandates,

changes in hospital payment from per diem rates to Diagnostic Related Group (DRG) rates or changes in the benefit coverage of the FFS program. **This adjustment must be mutually exclusive of trend and CANNOT be taken twice. The State must document how it ensures there is no duplication with trend.** If the State is changing one of the aspects noted above in the FFS State Plan then the State needs to estimate the impact of that adjustment. *Note: FFP on rates cannot be claimed until CMS approves the SPA per the 1/2/01 SMD letter. Prior approval of capitation rates is contingent upon approval of the SPA.* The R2 data was adjusted for changes that will occur after the R2 (BY for conversion) and during P1 and P2 that affect the overall Medicaid program.

Others:

- Additional State Plan Services (+)
 - Reductions in State Plan Services (-)
 - Legislative or Court Mandated Changes to the Program Structure or fee
 - Graduate Medical Education (GME) Changes - This adjustment accounts for **changes** in any GME payments in the program. 42 CFR 438.6(c)(5) specifies that States can include or exclude GME payments from the capitation rates. However, GME payments must be included in cost-effectiveness calculations.
 - Copayment Changes - This adjustment accounts for changes from R2 to P1 in any copayments that are collected under the FFS program, but not collected in the MCO/PIHP/PAHP capitated program. States must ensure that these copayments are included in the Waiver Cost Projection if not to be collected in the capitated program. If the State is changing the copayments in the FFS program then the State needs to estimate the impact of that adjustment.
1. ☐ The State has chosen not to make an adjustment because there were no programmatic or policy changes in the FFS program after the MMIS claims tape was created. In addition, the State anticipates no programmatic or policy changes during the waiver period.
 2. ☒ An adjustment was necessary. The adjustment(s) is(are) listed and described below:
 - i. ☒ The State projects an externally driven State Medicaid managed care rate increases/decreases between the base and rate periods.
Please list the changes.

Increases have been reflected in Column N and AC to account for capitation rate changes effective for CY 2025. The percentages vary by MEG w/ 5% for Nursing Facility, 18% for NFLOC-Waiver and 20% for Community Residents. These increases represent significant changes from the prior year capitation rates due to utilization and cost changes in emerging experience from the participating MCOs.

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (3 of 5)

c. Administrative Cost Adjustment: This adjustment accounts for changes in the managed care program. The administrative expense factor in the renewal is based on the administrative costs for the eligible population participating in the waiver for managed care. Examples of these costs include per claim claims processing costs, additional per record PRO review costs, and additional Surveillance and Utilization Review System (SURS) costs; as well as actuarial contracts, consulting, encounter data processing, independent assessments, EQRO reviews, etc. *Note: one-time administration costs should not be built into the cost-effectiveness test on a long-term basis. States should use all relevant Medicaid administration claiming rules for administration costs they attribute to the managed care program.* If the State is changing the administration in the fee-for-service program then the State needs to estimate the impact of that adjustment.

1. ☐ No adjustment was necessary and no change is anticipated.

- d. **1915(b)(3) Adjustment:** The State must document the amount of State Plan Savings that will be used to provide additional 1915(b)(3) services in **Section D.I.H.a** above. The Base Year already includes the actual trend for the State Plan services in the program. This adjustment reflects the expected trend in the 1915(b)(3) services between the Base Year and P1 of the waiver and the trend between the beginning of the program (P1) and the end of the program (P2). Trend adjustments may be service-specific and expressed as percentage factors.

e. Incentives (not in capitated payment) Trend Adjustment: If the State marked **Section D.I.H.d**, then this adjustment reports trend for that factor. Trend is limited to the rate for State Plan services.

1. List the State Plan trend rate by MEG from Section D.I.I.a

2. List the Incentive trend rate by MEG if different from Section D.I.I.a

3. Explain any differences:

Section D: Cost-Effectiveness

Part I: State Completion Section

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (5 of 5)

p. Other adjustments including but not limited to federal government changes.

- If the federal government changes policy affecting Medicaid reimbursement, the State must adjust P1 and P2 to reflect all changes.
- Once the State's FFS institutional excess UPL is phased out, CMS will no longer match excess institutional UPL payments.
- Excess payments addressed through transition periods should not be included in the 1915(b) cost effectiveness process. Any State with excess payments should exclude the excess amount and only include the supplemental amount under 100% of the institutional UPL in the cost

effectiveness process.

- For all other payments made under the UPL, including supplemental payments, the costs should be included in the cost effectiveness calculations. This would apply to PCCM enrollees and to PAHP, PIHP or MCO enrollees if the institutional services were provided as FFS wrap around. The recipient of the supplemental payment does not matter for the purposes of this analysis.
- **Pharmacy Rebate Factor Adjustment (Conversion Waivers Only) *:** Rebates that States receive from drug manufacturers should be deducted from Base Year costs if pharmacy services are included in the capitated base. If the base year costs are not reduced by the rebate factor, an inflated BY would result. Pharmacy rebates should also be deducted from FFS costs if pharmacy services are impacted by the waiver but not capitated.

Basis and Method:

1. ☐ Determine the percentage of Medicaid pharmacy costs that the rebates represent and adjust the base year costs by this percentage. States may want to make separate adjustments for prescription versus over the counter drugs and for different rebate percentages by population. States may assume that the rebates for the targeted population occur in the same proportion as the rebates for the total Medicaid population **which includes accounting for Part D dual eligibles**. Please account for this adjustment in **Appendix D5**.
2. ☐ The State has not made this adjustment because pharmacy is not an included capitation service and the capitated contractor's providers do not prescribe drugs that are paid for by the State in FFS **or Part D for the dual eligibles**.
3. ☐ Other

Please describe:

1. ☒ No adjustment was made.
2. ☐ This adjustment was made. This adjustment must be mathematically accounted for in Appendix D5.

K. Appendix D5 ? Waiver Cost Projection

The State should complete these appendices and include explanations of all adjustments in Section D.I.I and D.I.J above.

The retrospective year information reflected in the Appendix D workbook encompasses 18 months of incurred experience that was paid to the integrated care organizations as the Medicaid rate component of the demonstration program. The 18-month base period extends from January 1, 2023 through June 30, 2024. We have included inflationary estimates in Column L for state plan services and Column AA for 1915(c) waiver services reflect estimated capitation rates for the MI Health Link program. These adjustments reflect the changes being applied to the historical costs reported on tab D3. Actual Waiver Cost, to reflect potential increases in future years. Increases have been reflected in Column N and Column AC to account for capitation rate changes that were effective for CY 2025. These percentages vary by MEG with 5% for Nursing Facility, 18% for NFLOC-Waiver and 20% for Community Residents. These increases represent significant changes from the prior year capitation rates due to utilization and cost changes in emerging experience from the participating managed care organizations. None of these changes are due to any SPA modifications.

- b. Please note any other principal factors contributing to the overall annualized rate of change in Appendix D7 Column I.

Increases have been reflected in Column N and Column AC to account for capitation rate changes that were effective for CY 2025. These percentages vary by MEG with 5% for Nursing Facility, 18% for NFLOC-Waiver and 20% for Community Residents. These increases represent significant changes from the prior year capitation rates due to utilization and cost changes in emerging experience from the participating managed care organizations. None of these changes are due to any SPA modifications.
